

Check In: February, 2012

Study drug and design:

Abbott is testing an investigational drug, which is not approved by the Food and Drug Administration (FDA), and is not currently available on the market. The objective of this study is to determine safety, tolerability and pharmacokinetics (the amount of drug absorbed into your blood stream and how your body handles the drug) and immunogenicity (whether your body makes antibodies against, or mounts a defense against, the drug) following a single dose intravenous (IV) infusion of the investigational drug.

Minimum Subject Selection Criteria:

YOU may be eligible to take part in this clinical study if you meet the following conditions:

- ◆ Healthy men and women 18-55 years old.
- ◆ Females must be surgically sterile or postmenopausal for two years.
- ◆ Average weight for height (BMI 18 to 29).
- ◆ Not taking any medications or herbal remedies or supplements.
- ◆ No history of gastrointestinal surgical operations including removal of the gall bladder.
- ◆ No history of any drug sensitivity or allergy.
- ◆ No history of drug or alcohol abuse for at least 12 months.
- ◆ Non-user of tobacco for at least 6 months.
- ◆ No blood or blood product donation for 8 weeks.
- ◆ Must be 3 months away from last first in human study.

Screening dates: *(To find out if you are suitable to take part in this clinical study)*

- ◆ Call for appointments: Monday through Friday.
- ◆ Additional screening dates may be available.
- ◆ Screening appointments are between the hours of 7:30 a.m. and 10:30 a.m. and take approximately 3 hours.

Study dates: You must complete ALL Outpatient visits.

Group 2: 11 days confinement (may vary)

Group 3: 11 days confinement (may vary)

Outpatient visits (9): Study Days 11, 15, 22, 29, 36, 43, 57, 71, and 85 (dates will depend on your study date).

Payment:

Screening: \$50.00. (No compensation if urine drug/alcohol/cotinine screen is positive or if you withdraw yourself from consideration after you have been screened.)

Study: \$4325.00 (if selected and you complete the study).
